

Fluxaf PVCu Restorer

Fluxaf PVCu Restorer is a powerful eco-friendly water based restorer for removing ingrained dirt, water stains discoloration etc., from white PVCu windows, doors, fascias, cladding, conservatories and guttering without scratching. It revitalizes and whitens the dull and tired PVCu.

Removing:

- Ingrained dirt
- Water stains discoloration

Processing:

1. Spray onto the area to be restored and leave to work for approximately one minute.
2. Wipe down with a damp cloth .
3. Wash down with fresh water to remove and neutralize any remaining product residue.
4. More than one application may be necessary on stubborn areas, the use of abrasive pads will result in damage to the substrate.
5. Do not use on polycarbonate or other similar plastics, do not use on painted surfaces and it's not suitable for new PVCu as it can matten the surface.

Pay attention! Always put on a sample first to see if you get the desired finish.

Precautionary measures:

- Fluxaf PVCu Restorer can be used both externally and internally provided that there is adequate ventilation, the use of suitable PPE equipment is recommended whilst using the product.
- Can cause corrosion on certain metals remove any splashes immediately with fresh water.
- Allowing the product to work for at least a minute is essential, the longer the Restorer is left, the deeper it will penetrate into the upper levels of the substrate.

Cleaning:

Clean tools with (warm) water.

Available quantities:

0,5L, 5L & 20L.

Shelf life:

Fluxaf PVCu Restorer can be stored for up to 3 years between 5 °C and 35 °C in the original, unopened packaging.
