

Fluxaf Plastic Cleaner

Fluxaf Plastic Cleaner is specially developed for cleaning plastic surfaces, such as window frames, garden furniture, car parts, and more. The product effectively removes dirt, grease, dust, and other contaminants that can accumulate on plastic surfaces without damaging the material. With Fluxaf Plastic Cleaner, you not only achieve a clean surface, but also one that is protected and looks fresh and new for longer. The cleaner is quick and easy to use, making it suitable for both large surfaces and smaller, detailed applications.

Cleans plastic surfaces such as:

- Window frames
- Garden furniture
- Car parts
- Other plastic surfaces

Instructions:

1. Ensure that the surface you are cleaning is dry and free of loose dirt or dust.
2. Spray a generous amount of Fluxaf Plastic Cleaner directly onto the surface to be cleaned, or apply the product with a cloth or sponge. Ensure the surface is completely covered with the product.
3. Allow the cleaner to sit for a few minutes, so dirt and grease can loosen. This makes it easier to remove the dirt without causing scratches.
4. Use a soft cloth or sponge to thoroughly clean the surface. Make gentle, circular motions to remove the dirt.
5. For stubborn stains or dirt, apply a small amount of cleaner again and repeat the process.
6. For larger surfaces or if a lot of cleaner was used, you can wipe the surface with a clean, damp cloth to remove any excess cleaner.
7. Allow the surface to dry properly. Inspect the surface after drying to ensure it is completely clean. If necessary, repeat the process for stubborn stains or dirt.

Attention! Always do a test area first to see if you get the desired finish. Results can differ per wood or surface type.

Cleaning:

Clean tools with water.

Available quantities:

500 ml.

Shelf life:

Store the product in its original packaging in a cool, dry place. Make sure the bottle is tightly closed to prevent evaporation or contamination. Keep out of reach of children.

Safety advice:

For extensive safety information, consult the MSDS. MSDS can be downloaded at www.fluxaf.nl.
