

Lacq Floor Oil

Lacq offers the right wood protection for every job! Lacq Floor Oil is a transparent oil based on natural oils, suitable for treating and protecting indoor wooden floors. The oil penetrates deep into the wood, nourishing it from within and providing lasting protection against dirt, moisture and wear. The surface remains breathable and retains its natural appearance.

Suitable for wooden interior floors:

- Parquet
- Plank floors
- Laminate floors
- Untreated or sanded wood
- Other wooden floor surfaces

Application:

1. Ensure the area is dry, clean and well ventilated.
2. Remove dirt, dust and grease from the surface. If necessary, sand the floor down to bare wood (120–150 grit) and remove all dust.
3. Stir the oil well before use.
4. Apply Lacq Floor Oil thinly and evenly with a lint-free cloth or roller.
5. Leave to soak in for 15–30 minutes, depending on the absorbency of the wood.
6. Remove excess oil with a clean, dry cloth.
7. Allow the floor to dry for at least 24 hours before subjecting it to light use; fully cured after approx. 3 weeks.

Please note! Always test a small area first to see if you get the desired finish. This can vary depending on the type of wood.

Coverage:

Approximately 30 m² per litre.

Please note! Coverage always depends on the structure and absorbency of the wood, the layer thickness, the tools used and the application conditions.
